

Pumping Services, Inc.

An Employee Owned Company

Franklin Miller, Inc. Appoints Pumping Services, Inc. as exclusive Distributor for NY/NJ

Pumping Services Inc. a stocking distributor, aftermarket service facility, and manufacturers' representative for pumps, controls, SCADA systems and process equipment serving the New Jersey and New York area since 1970, has been appointed by Franklin Miller, Inc. as exclusive Distributor/Representative and Service Center for the New Jersey and New York City Metro areas.

Franklin Miller Inc. for 100 years and three generations has been a leader in size reduction technology involving crushers, shredders, grinders, wastewater treatment systems and more. Today Franklin Miller broad line of processors covers many aspects for wastewater treatment. The unique combination of experience in solids processing has made Franklin Miller uniquely capable of solving many difficult customer process problems. Upholding a 100 year tradition of quality, each Franklin Miller processor or size reduction system is built to exacting standards and then subjected to a rigorous inspection and testing process. With a Franklin Miller processor you are assured the finest and commitment to leadership starts with extensive engineering, research and development.

Pumping Services, Inc. with its PSI Process and Equipment and Instrumentation Technology Systems (ITS) divisions continues to grow on its path to becoming the leading supplier of water and wastewater treatment equipment in this area by providing highly efficient water technologies with high quality performance, from the leading manufacturers of pumps, and water treatment processes now including Franklin Miller.

According to Rich Malt, Service Manager for Pumping Services' Service Group, the appointment is in response to our customers' needs for high quality grinders for solids reduction in wastewater systems, along with prompt and reliable service all from one single supplier source. This results in faster turn around and saves on service and maintenance costs. We can now provide single source responsibility for pumping, grinders, process equipment, integrated control and SCADA systems, which are supported by the best design, engineering, project management, and the 24/7 capabilities of our field service group for support and training.

"We are excited to appoint the Pumping Services, Inc who has the reputation for the best customer, field service" added William Galanty, Joe Macula and David Schuppe at Franklin Miller. "With our processor and experience the customer is assured the finest, and now with the capabilities of PSI, customer operating and maintenance costs are reduced"

Pumping Services, Inc. has been in business since 1970, and is a privately held, employee-owned company headquartered at its 45,000 square-foot facility in Middlesex, New Jersey. Pumping Services, Inc. is a stocking distributor and service center for Flygt, a Xylem brand, and a manufacturers' representative for leading manufacturers of collection systems, wastewater screening, wastewater biological treatment equipment, wastewater monitoring and control, wastewater treatment clarifiers and scrubbers, tertiary filtration, water treatment, wastewater mixing and aeration, controls instrumentation, SCADA systems, UV disinfection, submersible and dry pit storm and wastewater pump stations, sludge dewatering and thickening equipment. Pumping Services supports an extensive aftermarket service operation including rental of pumps and related equipment for emergency pumping to the municipal, construction, industrial and commercial markets in New Jersey and New York.
