

Pumping Services, Inc.
An Employee Owned Company

IBS Group Appoints Pumping Services, Inc. as Distributor for New York /New Jersey

Pumping Services Inc. a stocking distributor, aftermarket service facility, and manufacturers' representative for pumps, controls, and process equipment serving the New Jersey and New York area since 1970, has been appointed by IBS Group as Distributor/Representative and Service Center for the New Jersey, New York City and surrounding areas. IBS Technics GmbH provides mobile flood-defense walls to protect people living anywhere in the world. The IBS Group has carved out an outstanding reputation as a solution provider for over 20 years for providing flood defense systems to protect critical infrastructure.

IBS, founded in 1994 for the purpose of manufacturing spill-retention barriers, has gone on to develop its technology in mobile flood-defenses. Deployable systems up to 15 feet high are now implemented to provide flood protection to entire districts and critical infrastructure, and constructed in a way to avoid major disruption to urban life. Many cities benefit from these systems including Cologne, Hamburg, Vienna, and Evansville in the United States. IBS movable flood-defense walls combine optimum protection against flood risk with maximum preservation of attractive riverside properties

Pumping Services, Inc., with its PSI Process and Equipment and Instrumentation Technology Systems (ITS) divisions continues to grow on its path to becoming the leading supplier of stormwater and wastewater treatment equipment in this area by providing highly efficient water technologies with high quality performance, from the leading manufacturers of pumps, and water treatment processes now including IBS Group.

According to David Hull, Estimating Manager for Pumping Services, Inc. "Too frequently we have seen the devastation and excessive costs associated with uncontrolled flooding. We can now assist with a deployable flood barrier solution up front to help avoid flooding and keep your facility safe and ready for business "

"Our well tested flood protection systems can benefit many communities and agencies in the eastern US Mid Atlantic area, just like many cities around the world." added Patrick Gilg Sales Manager at IBS. ***We are thrilled to be associated with Pumping Services who are long standing experts in many aspects of flood water management"***

Pumping Services, Inc. has been in business since 1970, and is a privately held, employee-owned company headquartered at its 45,000 square-foot facility in Middlesex, New Jersey. Pumping Services, Inc. is a stocking distributor and service center for Flygt, a Xylem brand, and a manufacturers' representative for leading manufacturers of collection systems, wastewater screening, wastewater biological treatment equipment, wastewater monitoring and control, wastewater treatment clarifiers and scrubbers, tertiary filtration, water treatment, wastewater mixing and aeration, controls instrumentation, SCADA systems, UV disinfection, submersible and dry pit storm and wastewater pump stations, sludge dewatering and thickening equipment. Pumping Services supports an extensive aftermarket service operation including rental of pumps and related equipment for emergency pumping to markets in New Jersey and New York.
