

Pumping Services, Inc.

An Employee Owned Company

Instrumentation Technology Systems Inc. (ITS) joins with Pumping Services, Inc.

Pumping Services Inc. a stocking distributor, aftermarket service facility, and manufacturers' representative for pumps, controls and process equipment serving the New Jersey and New York area for 45 years, has joined with Instrumentation Technology Systems Inc. (ITS) an instrumentation designer and integrator for control systems for municipal water and wastewater.

Instrumentation Technology Systems (ITS) founded in 1980, and based in Rahway, provides custom controls design, programmable logic controller programming, system integration, and has built a reputation in the industry as an established integrator for control systems and field service. ITS will move to the Pumping Services facility later in 2015. Pumping Services, Inc will position Instrumentation Technology Systems (ITS) within Pumping Services Controls and Instrumentation Group, the business dedicated to Supervisory Control and Data Acquisition (SCADA), pump station control, process equipment control, integrated control systems, field service, operator support and training.

Pumping Services, Inc. with its PSI Process and Equipment and Instrumentation Technology Systems (ITS) divisions continues to grow on its path to becoming the leading supplier of water and wastewater treatment equipment in this area by providing highly efficient water technologies with high quality performance, from the leading manufacturers of pumps, and water treatment processes. Pumping Services will now be able to provide pumping, and water treatment equipment, automatic controls and SCADA systems that are truly locally coordinated, supported and serviced.

According to Bryce Parkhurst, manager of Pumping Services' Controls and Instrumentation Group, the acquisition is in response to our customers' needs for automated systems to lower operating costs and increase the numbers of unattended operations. We can now provide single source responsibility for pumping, process equipment, integrated control and SCADA systems, which are supported by the best design, engineering, project management, and the 24/7 capabilities of our field service group for support and training.

"We are pleased to join the Pumping Services family as they share the same beliefs toward our customers" added Don LeWand and Anna Sadowska the founders of ITS "Over our 35 years we have always done our best to deliver products and services that would meet the needs of our customer and look forward to continuing this with PSI"

Pumping Services, Inc. is celebrating its 46th anniversary and is a privately held, employee-owned company headquartered at its 45,000 square-foot facility in Middlesex, New Jersey. Pumping Services, Inc. is a stocking distributor and service center for Flygt, a Xylem brand, and a manufacturers' representative for leading manufacturers of collection systems, wastewater screening, wastewater biological treatment equipment, wastewater monitoring and control, wastewater treatment clarifiers and scrubbers, tertiary filtration, water treatment, wastewater mixing and aeration, controls instrumentation, UV disinfection, submersible and dry pit storm and wastewater pump stations, sludge dewatering and thickening equipment. Pumping Services supports an extensive aftermarket service operation including rental of pumps and related equipment for emergency pumping to the municipal, construction, industrial and commercial markets in New Jersey and New York.
